

ULTRA BRAHMI

Upgrade the Brain Naturally

Clinically proven nootropic.

Helps manage Parkinson's, Dementia, Alzheimer's disease, and in the treatment of forgetfulness with advancing age.

An R&D Product of
Amulya Research Center

Made with a proprietary process that contains
Whole Powdered, Ultrapowerful Bacopa,
showing unmatched Powerful Bio-Efficacy.

Benefits of Brahmi

Improves Memory & Prevents Memory Loss

In a double-blind, randomized, placebo-controlled trial of 35 subjects aged above 55 years using the Wechsler Memory Scale, there was a significant improvement in total memory score of patients administered Bacopa monnieri, seen after 8 weeks.

Helpful to ADHD patients

In a double-blind, randomized, placebo-controlled trial of 36 children with Attention Deficit Hyperactivity Disorder, the symptom scores for restlessness were reduced in 93% of children, whereas improvement in self-control was observed in 89% of the children. The attention-deficit symptoms were reduced in 85% of them.

Enhances Retention of New Information

Besides cognitive improvement, Brahmi can also enhance learning capability. Consumption of B monnieri for 3 months in 76 human subjects between 40 and 65 years of age in the University of Wollongong, Australia resulted in significant effects on retention of new information.

Aids in Treatment of Alzheimer's and Schizophrenia

Cognitive deficit observed in rats receiving PCP were given Brahmi. Interestingly, receiving Brahmi before PCP administration can restore this cognitive deficit by decreasing NMDAR1 in the effected brain areas. Therefore, Brahmi could be a novel neuroprotective agent for the prevention of cognitive deficit in schizophrenia and Alzheimer's.

Powerful Antioxidant & Anti-inflammatory agent

A study on rat brains suggested that Bacopa monnieri exhibits a significant antioxidant effect after sub-chronic administration, which extends to the hippocampus as well. The results suggest that the increase in oxidative free radical scavenging activity by BM may explain the cognition-facilitating action of BM.

Reduces Cortisol Levels

In a study conducted by Micheli, it was found that Bacopa monnieri significantly reduced cortisol, cytokines, and artemin LPS-dependent alterations in plasma, while increasing the brain-derived neurotrophic factor levels.

Helps Reduce Episodes of Seizures

In a study conducted by E.Komali, rats were induced with seizures and then given Bacopa monnieri as the anti-epileptic treatment. The results showed that Brahmi extracts caused perceptible changes in the cholinergic system, and the Cholinesterase activities started returning to the control levels, suggesting that selected BM extracts offer neuroprotection by ameliorating the cholinergic activity during induced epilepsy.

Indications

Treatment for Medhya, Stress, Anxiety, Memory Decline, Lack of Concentration; Neuro relaxant; Relief provider for Epilepsy, Alzheimer's, Parkinson's disease, & Schizophrenia.

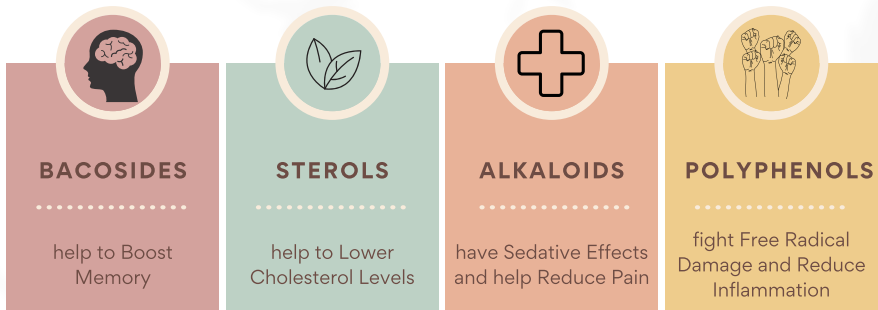

Dosage

1-2 capsules a day with warm milk.

Packing

Bottle of 60 capsules, 450mg of Brahmi in each capsule.

Actives In Brahmi

Why Ultra Brahmi?

We, at Amulya Labs, started from the ancient knowledge that Brahmi (Bacopa monnieri) is highly beneficial to the brain.

Our Research team has tried all forms of traditional Brahmi extracts, but we were unsatisfied with their efficacies.

We have hence created our Proprietary way of Growing, Cultivating, and Processing Brahmi into Ultra Brahmi Capsules which retain the highest quantity of Bacosides and other lesser-known actives.

Quality systems and SOPs are deployed in all the aspects of our processes, which are properly Documented and Maintained.

Complimented with WHO-GMP and Good Manufacturing Processes certifications, as per the State Legislation our facility has been audited by several third-party entities.

All equipments and utilities are Cleaned and Qualified as per the guidelines.

Ultra Brahmi..

has the Highest
Content of
Actives

is made by
Temperature
Controlled Extarction

is Curated with
custom-designed
machinery

Other Benefits of Brahmi

- Enhances Concentration
- Induces Calmness
- Reduces Blood Pressure
- Good for Hair
- Helps in Treatment of Diabetes
- Helps in Wound Healing
- Strong Analgesic & Antipyretic
- Aids Cell Renewal
- Aids to Treat Hypothyroidism
- Anti-ulcerative
- Anti-microbial
- Aids to treat learning disabilities
- Good treatment of Insomnia

About Amulya Labs

Amulya Labs is one of the fastest-growing R&D-based manufacturers of Ayurvedic Medicines, Cosmetics, and Nutraceutical products.

Since 2014, we have been on a mission to collaborate the ancient science of Ayurveda with the new age medicine to come up with Documented Evidence based Medicines.

Certifications

Our Vision...

is to preserve the ancient Vedic science of Plant-Based Medicines and support them by the modern testing methods to manufacture products that benefit humanity.

Amulya Research Center..

is our dedicated team of Scientists focused on in-depth Research of Plants and the Development of Herbal, Potent Solutions to ailments, that are without any side effects.

An ISO 9001: 2015 Certified Company
